PROCESSING FINGERPRINT PAYMENT TRANSFERS

Processing Fingerprint Payment Transfers

There are two processes for submitting payments for Fingerprints to the Department of Public Safety (PSA); Fingerprint Clearance Cards and Criminal History – No Clearance Card. PSA recognizes all fees as revenues and will only accept the following Event Types:

- INZ2 – Revenue Transfer
- INZ3 – Expenditure to Revenue Transfer

Fingerprint Clearance Cards – ITI/ITA

If you submit the following application(s) with your fingerprint cards and receive a clearance card, you will use the ITI/ITA process to pay the Applicant Clearance Card Team through PSA. The paying agency will be creating the ITI with PSA being the ITA agency. Once you have completed the ITI/ITA process and your agency has created an ITA for PSA, you may submit your packet including your application, fingerprint card, and the application submission form (obtain from the Applicant Clearance Card Team). The ITA will be processed as soon as possible. You no longer need to divide your payment into three lines, this can be done when the PSA completes their portion of the ITA.

You can check the status of the ITI and ITA by searching the document catalog.

Validate ITA document

- Confirm that the document validated successfully in the upper left-hand corner. If it did not, please see your accounting supervisor; verify correct elements such as Fund, Appropriation, etc.

Submit ITA document

Note: The document will be handled through workflow and will be pending the Department Approver (Finance). It is your responsibility to verify the transaction was completed and the funds transferred. Please note that errors can occur on either side of the transaction which will cause the transfer to fail. Until both the ITI and the ITA are in final status, the transfer of funds has not occurred. If a document fails, it can be returned to you for corrections and resubmission.

Note: Because the paying agency is the initiator, the final validations for their funding does not happen until the ITA is approved. If their funding cannot post due to a funding issue, appropriation or allotment problem, budget problem, etc., both documents (the ITI and the ITA) goes into a rejected status. The funds did not transfer, and the payment process must be restarted and go through both agencies and both approvals again.

Criminal History – No Clearance Card - IETAT

If you submit the following inventory sheet form with your fingerprint cards and receive criminal history; you will use the IETAT process. This process can only be used for the \$22 and \$20 fees. GAO is the approver of these transfers. If you have a state level only check or any other approved dollar amount, you will need to use the ITI/ITA process (See previous procedure).

The IETAT allows agencies who need to pay for the goods/services, in this instance Criminal History – No Clearance Card Fingerprinting, to initiate a payment without the need for the agency receiving the funds to participate in the creation/validation/submission of the document. The paying agency will initiate an IETAT, and will enter their agency's information in the 2nd Party Accounting section. The paying agency will also complete the Exchange Details section of the document by entering the correct Accounting Template for the party they are paying and amount of the payment. The COA elements for the agency receiving cash will be provided via the Accounting Template selected. The Accounting Template currently available for this process is:

- **FINGERPRNT** – For payment of Fingerprinting Services charges to the Department of Public Safety

All IETAT documents will be routed through workflow for departmental and GAO review for appropriateness and accuracy prior to approval. Once the IETAT is approved the funds are automatically released to PSA. You may send your fingerprint cards, inventory sheet, and screen print of the IETAT Header, General Information tab as soon as GAO has approved your IETAT. **Please put the inventory sheet number as your document name or document description.**

You can check the status of your IETAT by searching the document catalog.
